Debian "Philosophie" (Definition freier Software)

Debian-FAQ

Debian Satzung (Constitution)

Viele Architekturen!

Debian Code of Conduct

Debian Gesellschaftsvertrag (Social Contract)

Debian Policy Manual

Debian Free Software Guidelines (DFSG)

Open-Source Definition

Alle Werke, nicht nur Software

Non-DFSG → non-free Repo

Releases: ... Jessie (8) ... Stretch (9) ... Buster (10) ... Bullseye (11) ...

... Bookwork (12) ... Trixie (13) ...

testing

oldstable

stable (4-2023)

... Forky (14) ...

Repos:
- main
- non-free
- contrib

unstable heisst immer "sid", daher z.B. "siduction" Distro

Release-Namen: Bruce Perens, Pixar Studios, Toy Story

Paket-Zyklus: upstream → package → incoming → unstable → testing →
→ frozen → stable

Debian als Grundlage: Knoppix, Ubuntu, Mint, Xubuntu, Siduction,
grml.org, Emmabuntüs, Kali, Steam OS, gparted.org, ...

screenshots.debian.net

Dachorganisation:
Software in the Public Interest (SPI)

Beitragen: debian.org/devel/join

Long-Term Support

debian-live-11.6.0.amd64-cinnamon.iso

GFDL-Problem

Netinst

Arch.
(28*)

gnome, kde, lxde,
lxqt, mate, standard,
xfce

Server-OS
