What motor do you need?

Stepper

Dedicated to precise positioning

- ATM and cash dispensers
- Industrial, label and 3D Printers
- POS
- Textile and sewing machines
- Security and dome cameras
- Valves control
- Medical equipment

Brush DC

Affordable and easy to use

- Stage lighting
- Valves control
- Home/educational Robots
- Vending machines
- ATM and cash dispensers
- Robotics
- Medical and health care
- Industrial automation

Brushless

High reliability and high performance

- Industrial automation
- Fans
- Pumps
- Home appliances
- Drones ESC and Gimbals
- Handheld gimbals
- Medical and health care appliances

The STM32 Nucleo expansion boards for motor driving cover all the main motor types in a wide operating range of both current and voltage

Stepper

(*) IHM02A1 is dual stepper

Stepper motor driving solutions

Features

Board	Part	Stackable	Main feature and target applications
X-NUCLEO-IHM01A1	L6474	Up to 3 boards	Multi motor applications with step-clock and direction control. Microstepping up to 1/16 th and integrated current sensing.
X-NUCLEO-IHM02A1	2 x L6470	Up to 4 boards (up to 8 motors)	Multi motor application with SPI control. Microstepping up to 1/128 th and voltage mode driving for silent operation.
X-NUCLEO-IHM03A1	powerSTEP01	Up to 3 boards	High power motor driving. Both voltage mode (1/128 th microstepping) and current mode driving (1/16 th microstepping).
X-NUCLEO-IHM05A1	L6208	No	General purpose single motor. Microstepping managed by MCU.
X-NUCLEO-IHM06A1	STSPIN220	Up to 2 boards (*)	Ultra low voltage and portable equipments. Microstepping up to 1/256 th .
X-NUCLEO-IHM14A1	STSPIN820	Up to 2 boards (*)	Low power motor driving. Microstepping up to 1/256 th .

(*) Some limitations could be present when the boards are stacked.

Features

Board	Part	Stackable	Main feature and target applications
X-NUCLEO-IHM04A1	L6206	No	Both bi-directional or uni-directional brush DC motors without current limiting. Relays and other inductive loads. Outputs can be paralleled.
X-NUCLEO-IHM12A1	STSPIN240	No	Ultra low voltage and portable equipment. Dual bi-directional brush DC motor with current limiter. <u>Parallel operation is not allowed.</u>
X-NUCLEO-IHM13A1	STSPIN250	No	Ultra low voltage and portable equipment. Single high current bi-directional brush DC motor with current limiter.
X-NUCLEO-IHM15A1	STSPIN840	No	Dual bi-directional brush DC motor with current limiter. Parallel operation enabled through a dedicated pin.

Features

Board	Part	Stackable	Main feature and target applications
X-NUCLEO-IHM07M1	L6230	No	Low power brushless motor driver in single shunt and 3 shunts topology.
X-NUCLEO-IHM08M1	L6398 + STL220N6F7	No	High power brushless motor driver in single shunt and 3 shunt topology.
X-NUCLEO-IHM11M1	STSPIN230	No	Ultra low voltage and portable equipment. Brushless motor driver in single shunt topology.
X-NUCLEO-IHM16M1	STSPIN830	No	Brushless motor driver in single shunt and 3 shunt topology.
X-NUCLEO-IHM17M1	STSPIN233	No	Ultra low voltage and portable equipment. Brushless motor driver in three shunt topology.
